Yvan

JACOB

ENGINEERING STUDENT

I am in an engineering school, in my first year at ENSEEIHT in the MF2E department (Fluid Mechanics - Energy - Environment)

EDUCATION

2025 - 2028

SPECIALIZED ENGINEERING SCHOOL

ENSEEIHT, MF2E

(FLUID MECHANICS -
ENERGY - ENVIRONMENT)

2022-2025

CPGE (PCSI → PSI)

**HIGH SCHOOL: LYCÉE
KLEBER, STRASBOURG**

PROJECTS

- Modeling and simulation of pollutant propagation in a river (Fortran90)
- Automated airsoft target design (Python, C++)
- Adiabatic air-conditioning data analysis (Two-phase thermodynamics, Python, C++)

LANGUAGES

French

Native

English

B2/C1

Spanish

B1

Chinese

A1

PERSONAL SKILLS

- Autonomous
- Detail-oriented
- Persistent

TECHNICAL SKILLS

- CAD: Solidworks, Fusion360
- CFD: Fluent
- Programming Languages (Python, Fortran, C++, HTML, CSS, JavaScript)
- Office & Typesetting
LaTeX, Microsoft Office

WORK EXPERIENCE

Été 2024

Production Line Operator (3-shift system)

LA FOURNÉE DORÉE

- Discovered industrial company operations
- Participated in manufacturing processes

2017 - 2020

Youth Sports Instructor

JURA DOLOIS BASKET

- Supervised and coached young players during holiday camps

INTERESTS

- 3D Modeling & Printing
-Customized print head testing for Ender3
-ESP32 macro keyboard development
- Sports: Tennis (15 years), Basketball (10 years), Freediving (2 years)
- Music: Percussion (12 years: Drums, Xylophone, Timpani, etc.)
- Sailing: Optimist, Catamaran
